

Registration micro-credential Photonic Integrated circuits: from theory to practice and applications

For this micro-credential, you register and make an enrolment application via OASIS (the student administration system of Ghent University).

Participants must have at least a bachelor's degree 'Bachelor of Science in industrial engineering' or 'Bachelor of Science in Engineering'. If you don't have this bachelor's degree, your subscription will be rejected.

To complete this, you go through the following steps:

1. Use the direct link:

<https://oasis.ugent.be/oasis-web/registratie?0&target=inschrijven&aj=2026&arCode=ECPHIC>

2. If you have a **Belgian e-ID**, choose 'Register with Authentication Flanders' (e-ID, Itsme). This way we immediately have all your details and we can complete your registration quickly.

UNIVERSITEIT GENT

New at Ghent University?

Register with Authenticatie Vlaanderen (e-ID, Itsme®)

OR

Register by creating an account

When you log in with Authenticatie Vlaanderen, we will obtain your Belgian National Register number, first name and surname. From Databank Hoger Onderwijs (DHO) we will also obtain your place and date of birth, gender, nationality and address. This data is processed in accordance with our privacy policy (<https://www.ugent.be/en/administration/privacy>). We advise you to log in with Authenticatie Vlaanderen. Be sure to do so if you registered this way or if you want to enrol online.

3. Apply for enrolment.

Enrolments and enrolment applications

Apply for enrolment

You do not have an enrolment or enrolment application.

?

4. Select the left block “Apply as a degree student”.

Enrolments > Select programme type

Apply as a degree student

I want to apply for either a bachelor programme, a master programme, a preparatory programme, permanent training, postgraduate or a **microcredential** as a degree student. A degree student enrolls with the intention of obtaining a diploma.

Enrolment application

[save and continue](#)

5. Now your educational background will be retrieved:

- For participants with a Flemish secondary or higher education diploma, a link is automatically made here with the HO database, so this is almost always completed.
- If you need to add your study history yourself: upload your highest obtained or most relevant diploma (with scan).

Overview educational background

List your complete educational background (secondary education, higher education, ...) by clicking on 'add educational background'.
In addition, add each programme that you have not (yet) completed.

[Add educational background](#)

Type	Academic year	Country of Institution	Name of Institution	Programme	Attachment
Secondary School (High School)	1992	Belgium			<input type="checkbox"/>

10. Click on 'submit your enrolment application'.

11. As a last step, you will be able to click 'Enrol' if you registered with Authenticatie Vlaanderen. If you registered with an account, you will be asked to send a scan of your id or passport to enrol@ugent.be. Behind the scenes we will then put everything in order so that you can still enrol online.

12. If your bachelor's degree is correct, your enrolment will be registered.

* More info about visa voor non-EEA students:

When crossing the external borders, some nationals must be in possession of a visa: [Visa for non-EEA students \(including doctoral scholarship holders\) — For prospective students — Ghent University \(ugent.be\)](#)

For this course, a **short-stay visa (Schengen visa)** is needed. This course does not entitle you to a long stay student visa.

If you wish to stay in Belgium for up to 90 days, you may have to apply for a Schengen visa depending on your nationality.

[Schengen area](#): List of the Schengen countries.

[Check to verify if you need a Schengen visa.](#)

Applications can be introduced up to 90 days in advance and at least 15 calendar days prior to the intended departure date.

[Here](#) you find general information and [here](#) you find specific information on the Belgian situation.
